

DID YOU KNOW?

Palm-Biodiesel gives you better mileage as compared to other Biodiesel

Based on a comparison test done on a VW Polo (*German made car*), it was found that among the various types of biodiesel, Soy Biodiesel gives the least mileage & Palm-Biodiesel gives the highest. Soy Biodiesel allows travelling mileage of **8,000 km/ha** where else with Palm Biodiesel a VW Polo could go **109,000 km/ha/**. ***That is 13 times more mileage using Palm-Biodiesel !***

Mileage per ha per year: Based on a VW Polo
